

DOJ Handbook & Standard Operating Procedures

The courthouse, legal services, reading the police file, bail and sentence reductions, warrants and hearings — written for the way Nova is built today.

DEPARTMENT OF JUSTICE

EVERYONE: THE BASICS

ALL DEPARTMENTS

Three things run every department on Nova: **duty**, the **third eye**, and the **tablet**. Learn these first and the rest of the handbook is detail.

DUTY

Nothing works until you clock in. Third-eye the courthouse point and choose *Toggle Duty* (or the radial menu's *Toggle Duty*). Off duty the tablet's work apps stay locked — clock out when you go civilian.

THIRD EYE

Hold `Left Alt` and look at a person, vehicle or object. The courthouse point, doors, vehicles and other people all carry their options here. If an option is missing, you are off duty or too far away.

TABLET

`F2` opens the tablet. The Police and Ambulance apps are your MDT: dispatch board, reports, cases, warrants, units, bulletins. Work apps only unlock on duty. `Left Alt` toggles the cursor while it is open.

YOUR ID IS THE PERMID

When staff or a form asks for an ID, that means the **permanent ID** (the `#` number on the HUD). The only places that still take the short session number are the DOJ inmate tools and `/jail` — those say so.

Voice is proximity based with three ranges (whisper / normal / shout — cycle with the voice range key; the current range shows on the HUD). Use a **radio** item for department comms: use it from your inventory (`⌘`), join a channel, then hold the radio push-to-talk key. Channels 1–10 are police, EMS should sit on one agreed channel; see [codes & channels](#).

KEYS & COMMANDS

QUICK REFERENCE

KEY	WHAT IT DOES	WHO
F2	Tablet (MDT, dispatch, reports)	PD, EMS, DOJ
Left Alt	Third eye — all interactions on players, vehicles, objects	All
E on a person	Interaction wheel (ID, frisk, like, put in vehicle...)	All
F6	Release an escort / universal cancel	All
`	Inventory	All
K	Phone	All
F5	Open a staff ticket	All
/bill <amount> [reason]	Issue a fine or bill to the nearest person (lands in their bank Fines tab)	PD (and lawyers)
/dojlookup · /bail · /reducesentence	Inmate tools (also in the courthouse menu)	DOJ

Every key above is a FiveM key mapping, so if one clashes with something you already use, rebind it under *Settings* → *Key Bindings* → *FiveM*. Existing players keep their old binding until they change it.

DOJ: COURTHOUSE & LEGAL SERVICES

DEPARTMENT OF
JUSTICE

The DOJ is one unified job with a single ladder: **Secretary → Paralegal → Lawyer → Judge → Chief Justice**. The Chief Justice is the boss (hiring, society bank). Everything DOJ does starts at the courthouse point, marked on the map with a blue justice blip.

AT THE COURTHOUSE (THIRD EYE THE POINT)

OPTION	WHO	WHAT IT DOES
Toggle Duty	All DOJ	Clocks you in; the MDT and tablet work apps unlock on duty.
Legal Services → Look Up an Inmate	Paralegal +	Shows how much time a named inmate has left.
Legal Services → Post Bail / Release	Lawyer +	Releases the inmate from Bolingbroke.
Legal Services → Reduce Sentence	Judge +	Removes a number of minutes from a sentence.
Boss Menu	Chief Justice	Hire, promote, society account.

The same three tools exist as chat commands for when you are away from the courthouse: `/dojlookup <id>`, `/bail <id>`, `/reducesentence <id> <minutes>`.

These tools take the short server ID, not the PermID. Ask the inmate for the number shown on the players list, or have a police unit read it from the MDT's unit/profile view. Entering a PermID here will either do nothing or hit the wrong person.

Lawyers also carry a **Lawyer Pass** item as proof of standing, can issue bills with `/bill` for their fees, and read every police report, case and warrant in the tablet's Police app — that is the case file you build a defence from.

DOJ: STANDARD OPERATING PROCEDURES

FOLLOW IN
ORDER

REPRESENTING AN ARRESTED CLIENT

- 01 Get the call.** Inmates keep their phone. Answer, get their name and server ID, and their side in one sentence.
- 02 Read the file.** `F2` → Police app → their profile → the report the arresting officer wrote. If there is no report, the arrest is defective — that alone is grounds for bail.
- 03 Check the time.** Courthouse → Legal Services → Look Up an Inmate. Compare the minutes to the charges in the report against the sentencing guideline (misdemeanour 10–30, felony 30–90, capital 90–240).
- 04 Talk to the officer.** Radio or MDT chat with the arresting officer. Most disputes end here: an over-sentence gets reduced by a Judge, a missing report gets written.
- 05 Act.** Lawyer: post bail when the charges are fines-only, the report is missing, or PD agrees. Judge: reduce a sentence that exceeds the guideline for the charges listed. Record what you did and why in a note on the profile.

BAIL GUIDELINES

SITUATION	DECISION
No report in the MDT after 15 minutes	Bail. Notify the officer's Sergeant.
Fine-only offences but jailed anyway	Bail; the fine stands via <code>/bill</code> .
Sentence above guideline for the charges	Judge reduces to guideline; no bail.
Violent felony, complete report, active warrant	No bail. Client serves; you may argue a reduction on conduct.
Client escaped once already	No bail under any circumstances.

WARRANTS AND COURT

A Judge signs off warrants that PD requests with a case attached; deny anything without one. Hold a hearing at the courthouse for capital charges, a contested felony, or on a Chief Justice's order: prosecuting officer, defence lawyer, judge, ten minutes, ruling entered as a note on the profile and a bulletin if the ruling changes department practice. Judges do not bail their own hearings' defendants; a second DOJ member does.

CODES & CHANNELS REFERENCE

CODES USED ON NOVA

- **10-31** gunshot / crime in progress
- **10-52** person down, EMS needed
- **10-79** deceased
- **10-99** prison break
- **Code 4** scene secure, no further units
- **Officer down** panic — tablet dispatch to every unit

SENTENCING GUIDELINE (MINUTES)

- Infraction — 0, fine with /bill
- Misdemeanour — 10 to 30
- Felony — 30 to 90
- Capital — 90 to 240 (Lieutenant sign-off above 240)

MONEY THAT MOVES AUTOMATICALLY

- Revive fee — \$2,000 patient → medic
- Self check-in — \$2,000 (only under two EMS on duty)
- Radar fines — \$25 / \$50 / \$250 / \$500
- Impound release — fee → police fund

WHEN SOMETHING BREAKS

BEFORE YOU TICKET

SYMPTOM	FIX
No third-eye options on a player	You are off duty (F9), too far (step in to 2 m), or looking at their vehicle instead of them.
A key does nothing	Rebind it: Settings → Key Bindings → FiveM. The defaults only apply to new players.
Bail / lookup says "no player"	You typed a PermID. DOJ tools want the short server ID.
Weapon vanished from inventory	Open a ticket (F5) with the weapon name and the time — staff can restore it.

Anything else: **F5** opens a ticket to staff. Say what you were doing, who was involved (PermIDs) and the time; a screenshot helps more than a paragraph.

Nova RP DOJ Handbook · issued 5 September 2026 · reflects the live server configuration on that date. Department leads may add house rules underneath these; nothing here overrides a staff instruction given in the moment.
